#### **DETAILED ACTION**

## Specification

The abstract of the disclosure is objected to because the abstract is more than 150 words. Correction is required. See MPEP § 608.01(b).

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Best (USPN 6835144).

Regarding claim 1, Best discloses an iron type golf club head comprising a body having a front face arranged for impact with a golf ball, a back face, a heel portion, and a toe portion, a hosel connected to the heel portion of the body having a longitudinal axis, a perimeter weighting element protruding rearwardly from the front face defining a primary cavity in the back face wherein the primary cavity has a bottom surface and the perimeter weighting element includes a top rail extending between the heel and toe portion along an upper portion of the body and includes a sole extending between the heel and toe portions along a lower portion of the body, an interior wall extending from a first end connected to the perimeter weighting element adjacent the body heel portion

through the primary cavity between the top rail and the sole to a second end connected to the perimeter weight element adjacent the body toe portion defining an elongated secondary cavity within the primary cavity, and the interior being integrally formed on the bottom surface of the primary cavity and extending from the bottom surface of the primary cavity in a direction that is substantially perpendicular to the longitudinal axis of the hosel thereby forming an included acute angle between the interior wall and the bottom surface of the cavity (See Figures 1 and 2).

Regarding claim 2, Best discloses the interior wall having a height dimension that varies between the first and second ends thereof (See Figure 1).

Regarding claim 3, Best discloses the height dimension of the interior wall being greater at the second end than at the first end (See Figure 1).

Regarding claim 4, Best discloses a weight adjustment member disposed in the secondary cavity (See Figures 1 and 2).

Regarding claim 5, Best discloses the weight adjustment member being selected from a plurality of weight adjustment members of different weights (See Column 4, lines 1 through 14).

# Response to Arguments

Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

# Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin A. Hunter whose telephone number is (571) 272-4411. The examiner can normally be reached on Monday through Friday from 7:30AM to 4:00PM Eastern Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Greg Vidovich, can be reached on 571-272-4415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
